

# TFEU President's Report: Nov 18, 2015

---

## **Overview**

I would like to welcome all BCTF/TFEU members and Sub-local/TFEU members in attendance.

It has been a good start to the year as TFEU president. Myself and Vice President Christine Choinski have had liaison meetings with HR on regular basis. It is at these meetings when we can discuss and clear up any current or upcoming issues that our members may have. We have also met once with Moira and Glen at a BCTF liaison. The TFEU executive committee has met on a regular basis throughout the year; we have also had shop stewards joining us at these meetings which have been good to see. The more members we can get engaged in TFEU the better.

I would like to thank all members of EC, shop stewards and committee members for their dedication and hard work. These are sometimes thankless jobs and tasks but very important for our union.

Many new TFEU members have come into the building in the last 12 months. Many of these members have no real understanding of the history or role of TFEU. I will be making it a priority over the next few months to engage with new members and hopefully answer some of these questions.

Executive and Committee positions are needed to be filled. If you are interested please consider standing for one of these positions. Your union needs you to be engaged and part of it to be as successful as it can.

## **Grievances**

We currently have no grievances under way.

Thank You, Brad Veitch

President, TFEU
