

Transportation Alternatives (TRAC)
Report to the TFEU Membership Meeting – June 28, 2017

This year we participated in the Commuter Challenge and had a great response. There was a 21% participation rate of BCTF staff tracking their commute on the Commuter Challenge website. There was also a lot of participation in the daily draws happening in the workplace.

TRAC committee members continue to monitor available opportunities for staff to consider transportation alternatives. If anyone has any suggestions please let one of your committee members know.

Submitted on behalf of the Transportation Alternatives (TRAC),
